#### LET'S GET BUSY.

We can get there if we all work together.

It takes a long pull, a strong pull and a pull altogether though to accomplish any great work or land any great enterprise.

Enterprises are not just roaming around the country hunting some place to roost.

They are few and far apart, hard to hook and still harder to land.

What we need to do is to cast about, see what we need most, and then go after it like fighting fire.

We have got to have more people, fellow citizens, to grow.

A town can't grow on hot air. It takes people. People of flesh and blood. People who work, people who eat, people who wear clothes.

People who earn money, spend it in the town where they earn it, and thereby keep the wheels going round and round.

To accommodate more people, and to furnish them with an avenue of making a living, we must have more enterprises.

Enterprises that require sure enough people to run, that pay the people who run them, thus swelling the tin bucket brigade and the Saturday evening pay rolls.

We've got to get a hustle on us if we expect to keep on growing.

It will not do to halt.

If we halt we had just as well turn back, because the dead end of the law of gravitation will carry us back anyway.

It looks like the practical thing to do is to settle on the things we need most, which is feasible, which there is a reasonable possibility of securing, and then go after them.

The greatest need that confronts us today is the electrification of the Bryan-College interurban. It would add to our stability and certainty, and pour into our coffers the greatest and steadiest stream of cold of any one thing that could possibly be done. It would also be of untold benefit to the A. & M. College.

The thing is possible if we but get right down on the proposition and stay with it.

Then we should encourage the interurban to the bottom in every way we can. It means, when fully developed, great things for Bryan.

Bryan ought to have a cotton mill.

It is in the heart of a rich cotton growing region. Fuel is as cheap here as anywhere in the State. It would pay. It would swell our population and give employment to many people.

Bryan needs a cannery factory. It would employ labor, and be a valuable adjunct, or side line, to the farmers. They could raise the fruits and vegetables to keep it going with little or no extra expense, and it would put many a dollar in their pockets, and in a dull time of the year, too.

Bryan also needs a creamery as an aid to the farmers.

We should not forget that everything which helps to produce wealth helps Bryan.

By all means we should have a first-class highway to the A. & M. College. This would develop every inch of territory between the two places and bring in more people.

There are many other things we could name that Bryan needs, but it

## FOOD IMPORTATIONS ARE GROWING

November Receipts Showed Marked Increase Over Corresponding Month in 1912.

Food importations in November showed a marked increase over the corresponding month of the preceding year and a material increase over the figures for October. This is especially apparent in fresh beef and beef cattle. Importations of fresh beef, which amounted to five and two-thirds million pounds in October, were practically double the quantity in November, the figures for November being 10,556,516 pounds, valued at \$900,296. Of pork the importations during November were 110 thousand pounds, and of mutton, 32 thousand pounds. More than one-half of the beef imports came direct from England, three and one-fourth million pounds having been received at New York and two and one-fourth million pounds at Boston. At the Pacific coast ports the imports were 580 thousand pounds, chiefly from Australia.

As to the origin of the practically six million pounds of fresh beef imported from England, the records supplied to the Bureau of Foreign and Domestic Commerce make no specific statement, though the fact that there were practically no arrivals of fresh beef direct from Argentina suggests that at least a portion of the beef coming from England may have originated in Argentina, which country is now England's chief source of supply of foreign-grown beef.

Cattle importations in November also show a very large increase over those of the corresponding month of 1912, having been 123,118 head, valued at \$3,306,723, against 43,758 head, valued at \$829,358, in November, 1912. The total number of cattle imported in October and November, under the operations of the new tariff law, was 253,757 head, valued at \$6,704,790. The value of cattle imports in October and November was greater than that of all the earlier months of the year, while the quantity of beef imported was also much in excess of that of the earlier months of the year. The value of cattle imports for the full calendar year will approximate 15 million dollars, while the imports of cattle will amount to less than one million dollars' value, against three and one-fourth million dollars in 1912, 14 million in 1911, 24 million in 1908, and 41 million in 1905.

The importations of wheat during the month of November were 127 thousand bushels, against two thousand bushels in November, 1912; and of flour, 10,824 barrels, against 6,190 barrels in the same month of 1912. Importations of oats in November of the preceding year. The importations of potatoes during November were 764,863 bushels, against 10,668 bushels in November, 1912.

#### B'NAI B'RITH DAY.

Moritz Lodge, I. O. B. B. of this city, held their annual celebration at Temple Freda last evening, which is known as B'nai B'rith day.

Beautiful music, reading and recitations were rendered by the wives and daughters of the members of the order.

The speakers of the evening were Charles L. Sanger of Waco and Rabbi W. Willner of Houston.

Mr. Sanger's address was on B'nai B'rith and its mottoes, "Benevolence, Brotherly Love and Harmony." Rabbi Willner's subject was "Enlightenment," going back to the time of the victorious Maccabees, when they found a small cruse of holy oil that was not destroyed by the enemy, and

## The Last Week of OUR GREAT FLOOD SALE

You can not afford to let it pass by without taking advantage of some of its wonderful bargains in men's High Grade Wearing apparel.

It will even pay you to buy your next winter's supply now. Hundreds of other Bryan men have done it; why not you?

The Store for Values in Men's Apparel.

## CHARGES FOUND TO BE UNFOUNDED

#### Charges Unfounded.

[By Associated Press]

Washington, Jan. 12.—The special commission found Julian Hawthorne's charges of mistreatment in the Atlanta Federal Penitentiary unfounded.

#### Will Investigate Michigan Strike.

[By Associated Press]

Washington, Jan. 12.—Congress reopened today. Bills were introduced in the House to conserve radium lands, but no administration trust bills appeared. Senator Ashurst introduced a resolution for Congressional investigation of the Michigan copper strike. It would probe the copper profits, whether peonage is maintained, access to postoffice prevented and immigration laws violated.

#### THE WEATHER

New Orleans, La., Jan. 10, 1914.

Mr. John Daly, Jr., Bryan, Tex. Freezing Sunday morning.

CLINE.

Coming Wednesday, January 14.

At the Crystal  
**MISS HELEN GARDNER IN**  
**"THE DAUGHTER OF PAN."**

#### REEL BURNED AT THE CRYSTAL SATURDAY NIGHT

While we exceedingly regret that we were forced to close our show Saturday night before our usual time for the above reason, we beg to assure you that it was due in no way to negligence on our part. We attribute our loss to the fact that the film in question was in bad condition, causing a break and exposure of same with the above result. Our show is equipped with sufficient exits, having a large double door on the side as well as in the rear, in addition to the front exits, assuring you of every available protection. We employ none but experienced operators and are endeavoring to make our show a place of safety and enjoyment to you. We appreciate your patronage and your consideration of our loss. We suffered in no way except the loss of the film and our show opens today at 1 p. m. as usual, with an exceptionally good program. Warner's Features Company presents "The Auto Bandits of New York," in three parts, full of thrills and excitement. A sensational story of a band of thieves and their capture by the police. "When Perriott Met Pierrette," a strong two-reel drama with Barbara

Tennant. J. Warren Kerrigan tonight in "The Barrier of Bars." "The Curse" tonight, big two-reel drama. ELI MARKS.

#### WHAT INVENTORS ARE DOING.

Spellman & Murray, patent attorneys of Dallas, Texas, announce the issuance by the United States patent office, at Washington, D. C., of the following patents to residents of Texas for the week ending January 3, 1914.

James Connor, Greenville, badge.  
John L. Cuba, Taylor, punch.  
Robert O. Daniel, Dodsonville, ribbon cabinet.  
Simpson B. Dyer, Tulla, harness rack.  
Judson L. Higginbotham, Dallas, photographic printing machine.  
Reuben S. Smith, Marshall, electric heated steering wheel.  
Franklin E. Stillings, El Paso, film-feeding machine.  
Oliver H. Rue, Ivanhoe, reed organ.  
William H. Braiser, Corpus Christi, stump burner.

Coming Wednesday, January 14.

At the Crystal  
**MISS HELEN GARDNER IN**  
**"THE DAUGHTER OF PAN."**
